To view the TV programme PULLING POWER feature on the W152 by Roger Cook, click [here](#).

The Ronart company is now in its fourteenth year and over the years it has gained a high reputation for its products both in UK and abroad. Whilst most cars are for the UK market we have LHD cars in South America, USA, Japan, Germany & France.

The W152 was first conceived in 1981, designed in 1984 and the first car completed in 1986 with production a year later. It is 'today's classic', one that will never go out of style and is unique amongst other cars available today.

The Ronart is a thrilling experience for the driver in feel, sight and sound of the magnificent racing machines of a long gone era. Driving pleasure of the W152 is enhanced by exhilarating performance and superb road
